Summary

Full Stack Developer experienced in building web applications using React.js, Next.js, TypeScript, Node.js, Express.js, Nest.js, and MongoDB. Skilled in developing end-to-end features across frontend, backend, APIs, authentication, authorization, and databases. Experienced in delivering freelance projects and collaborating in Agile teams, with a focus on clean, maintainable code and user experiences.

Professional Experience

Full Stack Developer — Freelance 01/2025 – Present

Developed full-stack web applications and RESTful APIs for real clients using React, Next.js, Node.js, Express.js, MongoDB, authentication, and role-based workflows.

Frontend Developer Intern, *Elevate Tech* 11/2024 – 06/2025

Cairo, Egypt

Developed production-level applications using React.js, Next.js, and TypeScript. Implemented authentication, form validation, API integration, and responsive interfaces while participating in Agile development and Git workflows.

Projects

Project Tracker — Project Management Platform, *Freelance Engagement — Imam Abdulrahman Bin Faisal University (IAU), Saudi Arabia* 03/2026 – 08/2026

LiveDemo

- Architected a production-grade multi-tenant SaaS platform enabling organizations to manage projects, tasks, documents, and team workflows with strict tenant data isolation.
- Implemented an enterprise-grade security and governance layer, featuring a decoupled two-tier RBAC system, automated JWT refresh token rotation, concurrent request queueing, and NoSQL injection sanitization.
- Enabled real-time team collaboration through JWT-authenticated Socket.io channels for instant task updates and targeted user notifications.
- Delivered actionable project analytics using timezone-aware MongoDB aggregation pipelines to surface task KPIs, velocity trends, and project health metrics.

Tech Stack : React.js, TypeScript, Node.js, Express.js, MongoDB, Mongoose, JWT, React Query and Context

Soaq Kasem — E-Commerce Platform | Freelance Project 07/2026 – 08/2026

Live Demo

- Architected and delivered a full-stack e-commerce platform for fresh-produce ordering, featuring a responsive storefront and role-based admin operations dashboard.
- Engineered a dual-mode shopping cart using Zustand for persistent guest carts and TanStack Query with REST APIs for authenticated, backend-synchronized carts.

- Implemented verified-purchase reviews and loyalty rewards, including point accrual, redemption, and automatic cancellation rollbacks.
- Designed an automated WhatsApp order workflow with structured order data and MongoDB bulk operations for inventory updates.
- Integrated JWT authentication, RBAC, filtering, sorting, pagination, and sales KPI analytics with Recharts.

Tech Stack: React · Node.js · Express.js · MongoDB · TanStack Query · Zustand · REST APIs

Sanda – Recruitment & Job Management Platform
Frontend | ***Backend*** | ***LiveDemo***

- Contributed to a workforce marketplace connecting companies with workers for flexible jobs, implementing job posting, worker applications, applicant management, and status-tracking workflows.
- Developed role-based authorization, wallet workflows, real-time notifications, and QR-code attendance features.
- Built reusable forms and validation workflows with robust loading states and API error handling.

Tech Stack: React, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Socket.io, REST APIs

E-Commerce Flower Shop – Admin Dashboard
GitHub | ***LiveDemo***

- Collaborated in an Agile/Scrum team, participating in sprint planning, code reviews, and Git/GitHub workflows.
- Engineered a full-stack e-commerce platform with a storefront, admin dashboard, and localization using next-intl.
- Integrated authentication via NextAuth, filtering, and checkout with Stripe.
- Built category management with sales analytics and data visualization using Recharts.
- Optimized state management, form validation, and UX using TanStack Query, React Hook Form, Zod, Tailwind CSS, and Shadcn UI.

Tech Stack: Next.js 14, TypeScript, Tailwind CSS, Shadcn UI, Stripe, NextAuth, nextintl, TanStack Query, React Hook Form, Zod, Recharts.

Education

Full Stack Development Trainee, *Digilians (MCIT)* — 01/2026 – 06/2026, Cairo, Egypt

Frontend Development Diploma, *Route Academy* — 12/2023 – 06/2024

Bachelor of Business Administration, *zagazig university* — 2018 – 2022

Skills

Frontend:
React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Shadcn/UI, Bootstrap, React Query, Context API, Redux, React Hook Form, Zod, REST APIs, JWT, NextAuth, next-intl

Backend:
Node.js, Express.js, MongoDB

Tools & Workflow: Git, GitHub, Agile/Scrum, CI/CD
